Cree® PLCC6 3 in 1 SMD LED
CLX6F-PKW

PRODUCT DESCRIPTION
These SMD LEDs are packaged in an industry standard PLCC6 package. These high reliability and high brightness LEDs are designed to work in a wide range of environmental condition and are ideally suited for use in illumination applications.

Its wide viewing angle makes these LEDs ideally suited for channel letter, or general backlighting and illumination applications. The flat top emitting surface makes it easy for these LEDs to mate with light pipes.

FEATURES
- Size (mm): 3.5 x 3.4 x 2.8
- Luminous Intensity (mcd)
  PC Amber (6300-11300)
- Moisture Sensitivity Level: 5a
- Lead-Free
- RoHS Compliant

APPLICATIONS
- Architecture Lighting
- Channel Letter
- Backlight
# Absolute Maximum Ratings ($T_A = 25^\circ C$)

Notes:
1. The above kit numbers represent the order codes which include multiple intensity-bin and color-bin codes. Only one intensity-bin code and one color-bin code will be shipped on each reel. Single intensity-bin code and single color-bin code will be orderable in certain quantities. For example, intensity bin from 1k1m - Y means intensity bin from (1k1m or X or 1n1p or Y) will be shipped by Cree.
2. Please refer to the “Cree LED Lamp Reliability Test Standards” document for reliability test conditions.
3. Please refer to the “Cree LED Lamp Soldering & Handling” document for information about how to use this LED product safely.
The above data are collected from statistical figures that do not necessarily correspond to the actual parameters of each single LED. Hence, these data will be changed without further notice.
The above data are collected from statistical figures that do not necessarily correspond to the actual parameters of each single LED. Hence, these data will be changed without further notice.
MECHANICAL DIMENSIONS

All dimensions are in mm.

NOTES

RoHS Compliance

The levels of environmentally sensitive, persistent biologically toxic (PBT), persistent organic pollutants (POP), or otherwise restricted materials in this product are below the maximum concentration values (also referred to as the threshold limits) permitted for such substances, or are used in an exempted application, in accordance with EU Directive 2002/95/EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), as amended through April 21, 2006.

Vision Advisory Claim

Users should be cautioned not to stare at the light of this LED product. The bright light can damage the eye.
KIT NUMBER SYSTEM

Cree LED lamps are tested and sorted into performance bins. A bin is specified by ranges of color, forward voltage, and brightness. Sorted LEDs are packaged for shipping in various convenient options. Please refer to the "Cree LED Lamp Packaging Standard" document for more information about shipping and packaging options.

Cree LEDs are sold by order codes in combinations of bins called kits. Order codes are configured in the following manner:

```
C C C C C - D X G - X H J K L M N N T

C C C C - Product Series
D - Color
G - Option
S : Standoff
N : No Standoff
B : Black Face
W : White Face
A : Black Body

T - Packaging Type
1 : Bulk Pack
2 : Ammo Pack
3 : Tape & Reel (Roll Pack)
4 : Tube Pack

H - Red Color Min. Intensity Bin
H - Red Color Max. Intensity Bin
J - Green Color Min. Intensity Bin
J - Green Color Max. Intensity Bin
K - Blue Color Min. Intensity Bin
K - Blue Color Max. Intensity Bin
N - Blue Color Max. Wavelength Range
N - Blue Color Min. Wavelength Range
M - Green Color Max. Wavelength Range
M - Green Color Min. Wavelength Range
L - Red Color Max. Wavelength Range
L - Red Color Min. Wavelength Range
```
REFLOW SOLDERING

- The CLX6F-PKW is rated as a MSL 5a product.
- The recommended floor life out of bag is 24hrs.
- The temperature profile is as below.

![Temperature vs Time Graph]

Use only with CLX6F-PKW

<table>
<thead>
<tr>
<th>Solder</th>

• The boxes are not water resistant and they must be kept away from water and moisture.
• The LEDs are packed in cardboard boxes after packaging in normal or anti-electrostatic bags.
• Cardboard boxes will be used to protect the LEDs from mechanical shocks during transportation.
• The reel pack is applied in SMD LED.
• Max 2800 pcs per reel.
